	6.1 Bibliography	

ABSTRACT

Event management system is used to manage all the activity related to event. In any event many service providers work simultaneously and it is very hard to manage these providers. It is also important for event organizer that user has all the contacts details of these service providers so that he can contact them any time to plan an event at given time. To manage all these activity we have developed this software. To get success in the event management business, user should have strong network contacts of service provider. These contacts are essentially providers of specific services who can be mobilized quickly to participate in any given event. To make an event successful event manager needs different service provider like Sound systems services, Lighting providers, Canteen services, stage construction and so on. In any event many service providers work simultaneously and it is very hard to manage these providers. It is also important for event organizer that user has all the contacts details of these service providers so that user can contact them any time to plan an event at given time. . In present system Event Company has to do all management work manually. User can keep all payment information on papers. There is no system to check the past expenses on any event. To do this user have to check payment register and this task is very time consuming and tiresome.

ACKNOWLEDGEMENT

The mini project report on “**EVENT MANAGEMENT SYSTEM**” is the outcome of guidance, moral support and devotion bestowed on us throughout our work. For this we acknowledge and express our profound sense of gratitude and thanks to everybody who have been a source of inspiration during the Mini Project work.

First and foremost we offer our sincere phrases of thanks with innate humility to our **Principal Dr. B. S. Anami**, who has been a constant source of support and encouragement. We would like to thank our **Dean Academics Dr. S. G. Joshi**, for his constant support and guidance. We feel deeply indebted to our **H.O.D. Dr. Yerriswamy T.** for the right help provided from the time of inception till date. We would take this opportunity to acknowledge our guide and coordinator **Ms. Supriya B** who not only stood by us as a source of inspiration, but also dedicated her time and helped us in every aspect of our work.

Last but not the least, we would like to thank my parents, friends & well-wishers who have helped us in this work.

1. Prajwal Singh
2. Srishti A Bulbule
3. Sumanth S Yattinahalli
